## **opticalCON connectors ensure integrity of MediaPro International's 15 km fiber-optic Dante™ network at Diriyah E-Prix**

*Ryde, Isle of Wight, 15 April 2021.* Connectivity for a massive Dante™ audio network, extending over some 15 kilometers of fiber-optic cable, during the 2021 Diriyah E-Prix in Saudi Arabia, relied on the robust, field tested dependability of Neutrik opticalCON DUO connectors.

The site-wide audio, video, lighting and rigging infrastructure supplied and operated by Dubai headquartered MediaPro included their entire Middle East based stock of L-Acoustics systems – comprising K1, K2, Karas, 112P's, 5XT's, X8's, X15, KS28, SB18's and 20 LA RACK II, 13 Yamaha QL and CL consoles, with D2 racks, 15 of the company's own network racks – connecting all of the various audio zones to the network – and a complete redundant Dante network.

Commenting on the choice of opticalCON DUO connectors, MediaPro International Chief Operating Officer Shaam Pudaruth says, "Connectivity solutions of the quality and
