

FIBERFOX EBC25 2CH Cable

The FIBERFOX EBC25 2CH Cable connector is an expanded beam hermaphroditic connector suited for a vast array of applications. Its jam-nut design is suitable for all kinds of industrial, defense & governmental and even railway applications. The innovative design ensures its ability for deployment in the toughest environments where constant performance and total reliability are critical. The FIBERFOX EBC25 series has an improved temperature resistance of -46°C to 71°C. The connector's dimensions fully comply with the specifications of the MIL-DTL-83526 standard and is compatible with other connectors which use this standard. Neutrik offers this extraordinary connector solution in singlemode and multimode.

Benefiting from the expanded beam technology and the precision optical alignment the system creates high immunity against dust, mud, liquids and other contaminations. The FIBERFOX hermaphroditic coupling eliminates the need for adaptors and female and male mating halves. The cable connector comes pre-assembled and is not available as a single component. The finished cable is available in standardized lengths and is packed either on a drum or airspool.
